

English

Question 1

Who lives immediately above A?

- 1) D
 - 2) F
 - 3) C
 - 4) E
 - 5) None of these
-

Question 2

Who among following lives exactly between E and H?

- 1) A
 - 2) G
 - 3) B
 - 4) F
 - 5) C
-

Question 3

On which of the following floors F lives?

- 1) 4th
 - 2) 1st
 - 3) 8th
 - 4) 6th
 - 5) 2nd
-

Question 4

Which of the following statements is not correct?

- 1) H lives on the topmost floor
 - 2) G lives immediately below C
 - 3) There are three people living between E and G
 - 4) D lives on the odd numbered floor
 - 5) All are correct
-

Question 5

Four of the following five are alike in a certain way and hence they form a group, which one of the following does not belong to the group?

- 1) G

-
- 2) D
 - 3) B
 - 4) H
 - 5) A

Question 6

Direction: In the question below are given three statements followed by two conclusions numbered I, and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

All dates are appointment.

No appointment is a visit.

Only a few visits are months.

Conclusions:

I. No date is a visit.

II. All months being appointment is a possibility.

- 1) Only I follows
- 2) Only II follows
- 3) Both I or II follow
- 4) Either I or II follows
- 5) Neither I or II follows

Question 7

Directions: In the question below are given three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

Some sign are park.

Some cube are park.

Some park are rare.

Conclusion:

I. Some sign are rare.

II. Some cube are rare.

- 1) None follows
- 2) Only I follows
- 3) Only II follows
- 4) Both I & II follow

5) Either I or II follows

Question 8

Directions: In the question below are given three statements followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements disregarding commonly known facts.

Statements:

All wings are summer.

Some summer are soap.

No soap is an ant.

Conclusion:

I. At least some wing are soap.

II. Some ant being summer is a possibility.

- 1) None follows
- 2) Only I follows
- 3) Only II follows
- 4) Both I & II follow
- 5) Either I or II follows

Question 9

Directions: In the following question assuming the given statements to be true, find which of the conclusion among the given two conclusion(s) is /are definitely true and then give your answers accordingly.

Statements:

$P \leq Q > R \geq S; T > R < X$

Conclusions:

I. $X > S$

II. $T < P$

- 1) Only conclusion I follows.
- 2) Only conclusion I & II follow.
- 3) Only conclusion II follow.
- 4) Either I or II follows.
- 5) Neither conclusion I nor conclusion II follows.

Question 10

Directions: In the following question assuming the given statements to be true, find which of the conclusion among the given two conclusion(s) is /are definitely true and then give your answers accordingly.

Statements:

$$K \leq U = J \geq H \geq W < B$$

Conclusions:

I. $K < B$

II. $U \geq W$

- 1) Only conclusion I follows.
- 2) Only conclusion I & II follow.
- 3) Only conclusion II follow.
- 4) Either I or II follows.
- 5) Neither conclusion I nor conclusion II follows.

Question 11

Directions: In the following question assuming the given statements to be true, find which of the conclusion among the given two conclusion(s) is /are definitely true and then give your answers accordingly.

Statements:

$$A < B < C \leq D; E \geq B \geq F$$

Conclusions:

I. $F < D$

II. $E > A$

- 1) Only conclusion I follows
- 2) Both I and II follow
- 3) Only conclusion II follow
- 4) Either I or II follows
- 5) Neither conclusion I nor conclusion II follows

Question 12

Who is sitting sixth to the right of X?

- 1) Z
- 2) V
- 3) X
- 4) T
- 5) U

Question 13

Who is sitting exactly in the middle of Z and U?

- 1) Y
- 2) Z
- 3) U
- 4) V

5) Cannot be determined

Question 14

How many persons are sitting in the row?

- 1) 20
 - 2) 21
 - 3) 24
 - 4) 19
 - 5) 17
-

Question 15

Who is sitting second to the left of V?

- 1) U
 - 2) W
 - 3) S
 - 4) P
 - 5) None of these
-

Question 16

Which direction is W facing?

- 1) Towards the centre
 - 2) Away from the centre
 - 3) Same direction as S is facing
 - 4) Same direction as P is facing
 - 5) None of these
-

Question 17

Who is sitting to the opposite of S?

- 1) U
 - 2) Q
 - 3) R
 - 4) W
 - 5) V
-

Question 18

Who is sitting third to the right of U?

- 1) P
- 2) S
- 3) R

4) Q

5) T

Question 19

Who, among the following, are immediate neighbours?

1) P and T

2) T and U

3) P and R

4) V and W

5) Cannot be determined

Question 20

Who is B's mother-in-law?

1) P

2) Q

3) S

4) B

5) Cannot be determined

Question 21

What is the relation between Q and A?

1) Father-in law and son-in-law

2) Father and daughter

3) Father/Mother and daughter

4) Mother and daughter

5) Cannot be determined

Question 22

How many balls does Purple colour box contain?

1) 6

2) 11

3) 16

4) 15

5) 7

Question 23

What is the colour of box C?

1) Black

2) Yellow

-
- 3) Blue
 - 4) Green
 - 5) Purple

Question 24

Which box is placed immediately above box A?

- 1) G
- 2) C
- 3) B
- 4) D
- 5) E

Question 25

Which colour box is placed immediately below Green colour box?

- 1) Yellow
- 2) Red
- 3) Blue
- 4) Black
- 5) Purple

Question 26

What is the sum of balls in box B and C?

- 1) 19
- 2) 27
- 3) 28
- 4) 16
- 5) 22

Question 27

Sum of number of balls in which two boxes is highest?

- 1) C and E
- 2) C and G
- 3) B and E
- 4) C and B
- 5) None of these

Question 28

How many boxes are kept between black colored box and the box containing 11 balls?

- 1) 4

- 2) 3
 - 3) 2
 - 4) 1
 - 5) None of these
-

Question 29

How many such pairs of letters are there in the word DYNAMIC each of which has as many letters between them in the word (in forward and backward direction) as they have between them in the English alphabetical order?

- 1) None
 - 2) One
 - 3) Three
 - 4) Two
 - 5) More than three.
-

Question 30

In a certain coding language, 'BOUGHT' is coded as 'APVHIS', and 'EATING' is coded as 'DBUJOF', then how 'GROUND' can be coded in the given coding language?

- 1) FSPVOV
 - 2) FPVSOC
 - 3) FPSVOC
 - 4) FSPVOC
 - 5) FSPVOU
-

Question 31

On which of the following days does T have to attend the seminar?

- 1) Sunday
 - 2) Monday
 - 3) Tuesday
 - 4) Wednesday
 - 5) Friday
-

Question 32

Who among the following has to attend the seminar on Saturday?

- 1) U
- 2) V
- 3) T
- 4) P
- 5) Q

Question 33

If every person is made to attend the seminar in alphabetical order from Monday to Sunday, the day of attending the seminar of how many people will remain unchanged?

- 1) None
- 2) One
- 3) Two
- 4) Three
- 5) Four

Question 34

On which of the following days does S have to attend the seminar?

- 1) Monday
- 2) Tuesday
- 3) Wednesday
- 4) Thursday
- 5) Friday

Question 35

Who among the following has to attend the seminar on Saturday?

- 1) T
- 2) V
- 3) U
- 4) S
- 5) P

Question 36

Directions: In the following questions two equations numbered I and II are given. You have to solve both the equations and Give answer:

I. $2x^2 - 9x + 9 = 0$

II. $2y^2 - 9y + 10 = 0$

- 1) If $x > y$
- 2) If $x \geq y$
- 3) If $x < y$
- 4) If $x \leq y$
- 5) If $x = y$ or the relationship cannot be established

Question 37

Directions: In the following questions two equations numbered I and II are given. You have to solve both the equations and Give answer:

I. $x^2 - 11x + 24 = 0$

II. $y^2 + 4y - 12 = 0$

- 1) If $x > y$
- 2) If $x \geq y$
- 3) If $x < y$
- 4) If $x \leq y$
- 5) If $x = y$ or the relationship cannot be established

Question 38

Directions: In the following questions two equations numbered I and II are given. You have to solve both the equations and Give answer:

I. $x^2 + 2x = 0$

II. $y + 4 + \frac{4}{y} = 0$

- 1) If $x > y$
- 2) If $x \geq y$
- 3) If $x < y$
- 4) If $x \leq y$
- 5) If $x = y$ or the relationship cannot be established

Question 39

Directions: In the following questions two equations numbered I and II are given. You have to solve both the equations and Give answer:

I. $3y + 18 = 50 - 5y$

II. $x^2 = 16$

- 1) If $x > y$
- 2) If $x \geq y$
- 3) If $x < y$
- 4) If $x \leq y$
- 5) If $x = y$ or the relationship cannot be established

Question 40

Directions: In the following questions two equations numbered I and II are given. You have to solve both the equations and Give answer:

I. $x^2 + 2x - 3 = 0$

II. $y^2 + 6y + 8 = 0$

- 1) If $x > y$
- 2) If $x \geq y$

-
- 3) If $x < y$
 - 4) If $x \leq y$
 - 5) If $x = y$ or the relationship cannot be established
-

Question 41

Direction: Find the missing term in the series.

7, 16, 34, 70, ?, 286

- 1) 136
 - 2) 142
 - 3) 138
 - 4) 132
 - 5) 128
-

Question 42

Direction: Find the missing term in the series.

77, 82, 72, 87, 67, ?

- 1) 91
 - 2) 90
 - 3) 92
 - 4) 93
 - 5) None of these
-

Question 43

Direction: Find the missing term in the series.

5, 12, 24, 40, 59, ?

- 1) 81
 - 2) 83
 - 3) 82
 - 4) 80
 - 5) None of these
-

Question 44

Direction: Find the missing term in the series.

17, 22, 39, 76, 141, ?

- 1) 242
- 2) 142
- 3) 240
- 4) 342

5) 178

Question 45

Direction: Find the missing term in the series.

14, 37, 64, 95, ?, 169

- 1) 130
- 2) 135
- 3) 139
- 4) 140
- 5) 120

Question 46

Total runs scored by player 1 in both innings is by what percent much more/less than the player 4 in both innings (round off digit)?

- 1) 25% less
- 2) 20% more
- 3) 50% more
- 4) 21% less
- 5) Both have scored same runs.

Question 47

Which player has scored the highest runs in both innings?

- 1) Player 2
- 2) Player 5
- 3) Player 1
- 4) Player 3
- 5) Player 4

Question 48

Runs scored by player 1 in innings 2 is by what percent more/less than innings 1?

- 1) 50% more
- 2) 75% less
- 3) 40% more
- 4) 25% less
- 5) 100% more

Question 49

Find the average runs scored by all the players in innings 1?

- 1) 24.6

-
- 2) 31.4
 - 3) 45
 - 4) 25
 - 5) 35.8

Question 50

How many players scored more runs than the average runs scored in innings 2?

- 1) 4
- 2) 0
- 3) 2
- 4) 3
- 5) 1

Question 51

Directions: Each question below is followed by two statements I and II. You have to determine whether the data given in the statement is sufficient for answering the question. You should use the data and your knowledge of Mathematics to choose the best possible answer.

What is the average age of employees?

I. Age of manager is equal to number of employees in the firm.

II. Average age is increased by 2 when manager's age is added in total age of employees.

- 1) If the data given in the statement I alone is sufficient to answer the question whereas the data given in statement II alone is not sufficient to answer the question.
- 2) If the data given in the statement II alone is sufficient to answer the question whereas the data given in statement I alone is not sufficient to answer the question.
- 3) If the data in either statement I alone or in statement II alone is sufficient to answer the question.
- 4) If the data in both the statements I & II is not sufficient to answer the question.
- 5) If the data given in both the statements I & II is necessary to answer the question.

Question 52

Directions: Each question below is followed by two statements I and II. You have to determine whether the data given in the statement is sufficient for answering the question. You should use the data and your knowledge of Mathematics to choose the best possible answer.

Nehal, Mayur and Sujit are running a business firm in partnership. What is Nehal's share in the profit earned by them?

I. Nehal, Mayur and Sujit invested the amounts in the ratio 3 : 9 : 18.

II. Sujit's share in the profit is Rs. 3618.

- 1) Only I
- 2) Only II
- 3) Both I and II

- 4) Either I or II
- 5) Neither I nor II

Question 53

Directions: Each question below is followed by two statements I and II. You have to determine whether the data given in the statement is sufficient for answering the question. You should use the data and your knowledge of Mathematics to choose the best possible answer.

A boat takes a total time of three hours to travel downstream from P and Q and upstream back from Q to P. What is the speed of the boat in still water?

- I. The speed of the river current is 4 km per hour
 - II. The distance between P and Q is 16 km.
- 1) I alone sufficient while II alone not sufficient to answer
 - 2) II alone sufficient while I alone not sufficient to answer
 - 3) Either I or II alone sufficient to answer
 - 4) Both I and II are not sufficient to answer
 - 5) None of above

Question 54

Directions: Each question below is followed by two statements I and II. You have to determine whether the data given in the statement is sufficient for answering the question. You should use the data and your knowledge of Mathematics to choose the best possible answer.

What is the marked price of the book which was sold at a discounted price?

- I. The marked price of the book is 36% above the cost price of the table. Two consecutive discounts were given while selling the table.
 - II. The book was sold for Rs. 567.8. The percentage of discount given for the second time while selling the table is three times the percentage of discount given for the first time while selling the table.
- 1) The data in both statement I and II together are necessary to answer the question.
 - 2) The data either in statement I alone or in statement II alone are sufficient to answer the question.
 - 3) The data in both statement I and II together are not sufficient to answer the question.
 - 4) The data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
 - 5) The data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.

Question 55

Directions: Each question below is followed by two statements I and II. You have to determine whether the data given in the statement is sufficient for answering the question. You should use the data and your knowledge of Mathematics to choose the best possible answer.

What is the total number of girls in the classroom?

I. The ratio of the number of boys to the number of girls in the classroom is 8 : 7.

II. The average marks of girls in the classroom is 15 less than the average marks of boys in the classroom. The average marks of all the students in the classroom is 64) 1) The data in both statements I and II together are not sufficient to answer the question.

2) The data either in statement I alone or in statement II alone are sufficient to answer the question.

3) The data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.

4) The data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.

5) The data in both statement I and II together are necessary to answer the question.

Question 56

Find the average marks obtained in Subjects A, B and C respectively.

1) 70, 75, 77

2) 82, 69, 71

3) 80, 70, 72

4) 88, 66, 68

5) None of these

Question 57

If the average marks obtained in Subject D is 5 more than the average marks obtained in Subject A and the ratio of average marks obtained in Subject D and Subject E is 17 : 18. Find the average marks obtained in Subject E.

1) 84

2) 72

3) 90

4) 54

5) 96

Question 58

If the average marks obtained by girls in Subject A is 70. Find the average marks obtained by boys in Subject A.

1) 94

2) 90

3) 85

4) 75

5) 100

Question 59

If the number of students is increased to 150 and there is no increase in sum total of marks. What would be the new average of Subject B, Subject C and Subject E?

- 1) 56, 90, 55
- 2) 45, 44, 72
- 3) 56, 57.6, 72
- 4) 44.5, 51.2, 74
- 5) Data insufficient

Question 60

Suresh gets exactly the same marks in all subjects as their average are. (average marks in each subject= Suresh's individual marks). What is his percentage marks if maximum marks that can be obtained is 100 in each subject?

- 1) 87.2%
- 2) 79.40%
- 3) 80.5%
- 4) 81.15%
- 5) 82.30%

Question 61

A mixture of 40 litres of milk and water contains 10% water. How much water (in litres) should be added so that the water is 20% in the new mixture?

- 1) 4
- 2) 5
- 3) 7
- 4) 8
- 5) None of these

Question 62

Raju and Arun are two business partners. They invest their capital in the ratio 7 : 9. After 6 months, a third person Jitu joins them with a capital of two third of that of Arun. After a year, profit share of Raju was Rs 5600 then find total profit.

- 1) 15200
- 2) 12400
- 3) 16400
- 4) 30400
- 5) 24600

Question 63

15 man can complete a work in 12 days. 18 woman can complete the same work in 15 days. 6 man and 6 woman can complete the same work in 18 days. In how many days, 6 woman alone will finish the work?

- 1) 50
- 2) 45
- 3) 65
- 4) 40
- 5) None of these

Question 64

The volume of right circular cylinder is 1078 cm^3 . Also, the curved surface of the cylinder is 308 cm^2 . Find the height of the right circular cylinder in cm.

- 1) 8
- 2) 7
- 3) 6
- 4) 5
- 5) None of these

Question 65

The simple interest on a sum is INR 1600 when the rate of interest is taken as 6% per year and the time is 4 years. Use this information to compute the approx. compound interest on the same amount of money.

- 1) INR 1800
- 2) INR 1750
- 3) INR 1550
- 4) INR 1650
- 5) None of these

Question 66

What is the ratio of female to male students in A and B together ?

- 1) 2 : 1
- 2) 3 : 4
- 3) 5 : 4
- 4) 9 : 5
- 5) None of above

Question 67

Out of total no. of students in college C, what % were female?

- 1) 30%

-
- 2) 33.33%
 - 3) 45%
 - 4) 50%
 - 5) None of above

Question 68

What is average no. of females in all the colleges?

- 1) 78.5
- 2) 81.5
- 3) 75
- 4) 90
- 5) None of above

Question 69

What is the approx. % of female to male in College B?

- 1) 10%
- 2) 11%
- 3) 12%
- 4) 13%
- 5) 14%

Question 70

What is the difference between the number of the males in college A and number of females in college D?

- 1) 180
- 2) 120
- 3) 200
- 4) 240
- 5) 210

Question 71

The following sentences form a paragraph. The sentences are numbered as A, B, C, D, E, and F. These six parts are not given in their proper order. Read the sentences and choose the alternative that arranges them in a correct order.

- A. For over a year the Authorised Push Payment Scams Steering Group has been working on a voluntary code
- B. The code is squarely aimed at victims of authorized push payment (APP) scams, where a customer is tricked into sending money to a scammer directly
- C. On that date, a new code of conduct comes into play that will require the banks to treat fraud victims better

D. Bank customers who fall victim to frauds after 28 May will have a greater chance of being re-funded

E. The new code states customers should be reimbursed provided they took “sufficient care and heeded any warnings

F. that has now been adopted by all the big banks

Which of the following should be the first sentence after rearrangement?

1) D

2) F

3) A

4) E

5) B

Question 72

The following sentences form a paragraph. The sentences are numbered as A, B, C, D, E, and F. These six parts are not given in their proper order. Read the sentences and choose the alternative that arranges them in a correct order.

A. For over a year the Authorised Push Payment Scams Steering Group has been working on a voluntary code

B. The code is squarely aimed at victims of authorized push payment (APP) scams, where a customer is tricked into sending money to a scammer directly

C. On that date, a new code of conduct comes into play that will require the banks to treat fraud victims better

D. Bank customers who fall victim to frauds after 28 May will have a greater chance of being re-funded

E. The new code states customers should be reimbursed provided they took “sufficient care and heeded any warnings

F. that has now been adopted by all the big banks

Which of the following should be the second sentence after rearrangement?

1) A

2) B

3) C

4) D

5) E

Question 73

The following sentences form a paragraph. The sentences are numbered as A, B, C, D, E, and F. These six parts are not given in their proper order. Read the sentences and choose the alternative that arranges them in a correct order.

-
- A. For over a year the Authorised Push Payment Scams Steering Group has been working on a voluntary code
 - B. The code is squarely aimed at victims of authorized push payment (APP) scams, where a customer is tricked into sending money to a scammer directly
 - C. On that date, a new code of conduct comes into play that will require the banks to treat fraud victims better
 - D. Bank customers who fall victim to frauds after 28 May will have a greater chance of being refunded
 - E. The new code states customers should be reimbursed provided they took “sufficient care and heeded any warnings
 - F. that has now been adopted by all the big banks

Which of the following should be the fourth sentence after rearrangement?

- 1) E
- 2) A
- 3) F
- 4) D
- 5) C

Question 74

The following sentences form a paragraph. The sentences are numbered as A, B, C, D, E, and F. These six parts are not given in their proper order. Read the sentences and choose the alternative that arranges them in a correct order.

- A. For over a year the Authorised Push Payment Scams Steering Group has been working on a voluntary code
- B. The code is squarely aimed at victims of authorized push payment (APP) scams, where a customer is tricked into sending money to a scammer directly
- C. On that date, a new code of conduct comes into play that will require the banks to treat fraud victims better
- D. Bank customers who fall victim to frauds after 28 May will have a greater chance of being refunded
- E. The new code states customers should be reimbursed provided they took “sufficient care and heeded any warnings
- F. that has now been adopted by all the big banks

Which of the following should be the sixth sentence after rearrangement?

- 1) D
- 2) A
- 3) C
- 4) B
- 5) E

Question 75

Directions: Read each sentence to find out whether there is any grammatical mistake/error in it. Choose the option which is CORRECT (without any errors in it). If all sentences are incorrect, mark option 5 as your answer.

- A. You should leave a generous tip to reward good service.
- B. They ask for 8% extra from customers who pay the insurance by direct debit instead of as a lump sum.
- C. The company refused to except responsibility for the accident.

- 1) Only A
- 2) Only B
- 3) Only C
- 4) Both A and B
- 5) All are incorrect

Question 76

C: Only then did he turn and **retreat** down the hallway.

- 1) Only A
- 2) Only B
- 3) Only C
- 4) Both B and C
- 5) All of these.

Question 94

Read the following passage and answer the questions given below.

More and more people are feeling tired and lonely at work. In analyzing the General Social Survey of 2016, we found that, compared with roughly 20 years ago, people are twice as likely to report that they are always exhausted. Close to 50% of people say they are often or always exhausted due to work. This is a shockingly high statistic — and it's a 32% increase from two decades ago. What's more, there is a significant correlation between feeling lonely and work **exhaustion**: The more people are exhausted, the lonelier they feel.

This loneliness is not a result of social **isolation**, as you might think, but rather is due to the emotional exhaustion of workplace burnout. In researching the book *The Happiness Track*, we found that 50% of people — across professions, from the nonprofit sector to the medical field — are burned out. This isn't just a problem for busy, overworked executives (though the high rates of loneliness and burnout among this group are well known). Our work suggests that the problem is pervasive across professions and up and down corporate hierarchies.

Loneliness, whether it results from social isolation or exhaustion, has serious consequences for individuals. John Cacioppo, a leading expert on loneliness and coauthor of *Loneliness: Human Nature*
